

CENTRAL WAS SECOND

Athletic Meet at Jacob Tome Institute.

OVER 200 PARTICIPATED

Entry List Longer Than in Previous Years.

BALTIMORE CITY COLLEGE FIRST

Three of the Field Records Smashed—Washington High School

Scored 13 Points.

Special Dispatch to The Star.

PORT DEPOSIT, Md., May 12.—From every point of view the fourth annual field and track meet of the Jacob Tome Institute, which was held this afternoon in the beautiful grounds at Port Deposit was a brilliant success.

The entry list was longer than in previous years, there being upward of two hundred contestants. Although no track records were broken three of the field records were smashed. They were the pole vault, in which H. G. Gamble, a Tome man, raised his own record of 10 feet to 12 feet 4 inches; the shot put, in which Miller raised the previous record, 41 feet 1/4 inches, to 43 feet 5/4 inches; and the hammer throw, in which B. McCarroll raised the record from 125 feet 10 1/4 inches to 134 feet 13 inches.

The meet was won by the Baltimore City College with a total of 23 points exclusive of junior points, which counted 60 per cent of the regular allotment. Central High School of Washington was its nearest competitor at a total of 13. One of the prettiest races of the day was the 220-yard run. In the third heat Troupe of Latin school, in spite of the disadvantage of a bad start, made a wonderful spurt at the finish and won the heat. He was third in the final.

After the games the contesting athletes were entertained by the Athletic Association of the Institute at an excellent dinner, which was served in the new dining hall.

COMING INTERCOLLEGIATE CHAMPIONSHIP ATHLETICS

With the holding of the first sets of dual track meets in the east speculation is rife as to which college will carry off the intercollegiate championships at Cambridge May 25 and 26. A week ago six of the big east-ern institutions were compelled to show their hands, and there were several distinct surprises as they did so. The biggest surprise was the unexpected strength of Harvard and Pennsylvania. The Crimson track team overhauled Dartmouth by the score of 101 to 16, while the Quakers were their one better by beating Columbia 102 to 15.

Yale's first try-out came yesterday against Princeton, but the Elis are not expected to be the factors they have been in the past because of the loss of Bray, the champion pole vaulter, and the illness of Parsons, who went abroad with the Olympic team. The prettiest races of the day was the 220-yard run. In the third heat Troupe of Latin school, in spite of the disadvantage of a bad start, made a wonderful spurt at the finish and won the heat. He was third in the final.

After the games the contesting athletes were entertained by the Athletic Association of the Institute at an excellent dinner, which was served in the new dining hall.

First event, 100-yard dash—First heat—Won by H. S. Dyer, B. C. C.; second, H. C. Kemper, C. H. S.; third, H. S. Dyer, B. C. C.; fourth, H. S. Dyer, B. C. C.; fifth, H. S. Dyer, B. C. C.; sixth, H. S. Dyer, B. C. C.; seventh, H. S. Dyer, B. C. C.; eighth, H. S. Dyer, B. C. C.; ninth, H. S. Dyer, B. C. C.; tenth, H. S. Dyer, B. C. C.

Second event, 100-yard dash—First heat—Won by H. S. Dyer, B. C. C.; second, H. C. Kemper, C. H. S.; third, H. S. Dyer, B. C. C.; fourth, H. S. Dyer, B. C. C.; fifth, H. S. Dyer, B. C. C.; sixth, H. LIKELY TO FIGHT THE NEW YORK JOCKEY CLUB

NEW YORK, May 12.—Among the visitors at the race track this week was the manager of an up-state pool room that has fallen on unprofitable days through the Jockey Club's activity in withholding details of racing until such time as they are of no use to the so-called "outsiders." He has not seen a real horse race since the fall of 1904, and watched the contest curiously. Between races he discussed the situation, and, as he was well-informed, his conversation was interesting. He threw some thoughts on the present situation which go to show that speculative interest in racing is well developed through the state, and that the war on pool rooms may result finally on racing itself unless the Jockey Club lets down the bars it has raised and is stalling so carefully.

"The up-state pool rooms are in the same boat with the city rooms at present," he said, "and they are likely to stay there for some time to come. To that extent the Jockey Club has succeeded in putting us out of business." But there is another side to the question that the stewards have overlooked, and that is the influence behind the pool rooms outside of New York city. You have no idea here of the political strength of the men who control most of the out-of-town rooms, nor how assiduously they will labor to increase it, with a view of putting through anti-race-track legislation at the next meeting of the legislature.

"Virtually every up-state town and city has its pool room or rooms—Albany, Troy, Rochester, Syracuse, Buffalo, Schenectady, Cohoes. These are a few of the most important, but they by no means complete the list. I know it for a fact, but anyway it stands to reason, that these rooms would not be permitted to operate unless influence could be brought to bear. That influence will be directed against racing if the Jockey Club persists in its present course."

"As far west as Chicago pool-rooms men have written offering financial aid, if necessary, in which case they would be in New York state. Why? Because their patrons do not care to speculate to any extent on any but the eastern races when there is racing in the east. The best horses and the best jockeys are here. Away from the track men play the jockeys they know. They want a ride for their money, and they believe in addition that where big purses are offered there is less probability of in-and-out racing. But without eastern racing they would turn to the western tracks."

"We worked with the Jockey Club this spring against the Cassidy-Lanning bill. Next winter we will be back with the thousands of the state who like to have a little wager on big races. They have no love for New York city, and they don't care whether it has racing or not if they are entirely shut out of participation. Of course, the sport looks strong and healthy just now, but it is in Chicago, but it was wiped out almost in a day. That's just what may happen here if the Jockey Club doesn't take down some of the bars."

UNDERSEA COAL STORAGE.

English Admiralty's Important Experiment at Portsmouth.

From the London Chronicle.

Important experiments are being carried out by the naval authorities at Portsmouth dockyard to ascertain to what extent the steaming properties of the Welsh coal used in the British navy are improved by storage in the sea.

Eighteen months ago iron crates, each containing two tons of coal, were sunk in the big basin, and at the same time a similar quantity of coal was carefully stored in the open air at the coaling point and sheltered from the weather beneath tarpaulins. At intervals of six months two-ton samples from each storage have been taken out and carefully burned, and the results of the experiments have shown conclusively that by submarine storage of coal its calorific value steadily increases, while by storage in the open air a decided decrease is shown.

At the naval coaling stations in the tropics this decrease in calorific value is very great, the sun's heat drawing all the light volatile oils out of the coal. The admiralty, having satisfied themselves of the physical and financial advantages of the storage of coal in the sea, have now directed that experiments be made to ascertain its practicability on a large scale.

The difficulty is that the submerged coal has to be dried before use, to remove the superficial moisture, which otherwise in the close confines of a warship's bunkers would soon set off spontaneous combustion. The only method of drying so far attempted is by spreading the coal on iron trays in the open air, a process satisfactory enough for experimental purposes, but not feasible for quantities that amount to thousands of tons.

The Morris School has organized a team and would like to arrange games with teams averaging thirteen years. Send challenges to Fred Berger, 1805 Wiltberger street northwest.

The Force School yesterday defeated the Holmes Athletic Club by 20 to 14. The features were the first base playing of Robinson, the pitching of Pettit and the batting of Krunk.

Washington Boy Wins.

William C. Harrison, Tennis Champion at Princeton.

Special Dispatch to The Star.

PRINCETON, N. J., May 12.—The fourteenth annual interscholastic tennis championship of Princeton University was won today by William C. Harrison of the Western High School of Washington. Eighteen men were entered.

This is the second championship to be won by the Western High School, as Spencer Gordon won the same event last year.

Track Athletics in Iowa.

DES MOINES, Iowa, May 12.—Iowa State Agricultural College track team today defeated Iowa University, 93 to 38.
